**DETAILED ACTION.**

***Specification***

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The following title is suggested: Gaming Machine With Means For Requesting Funds.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Crevelt et al, US Patent No. 5,902,983.

Crevelt et al disclose a preset amount electronic funds transfer system for gaming machine comprising: a gaming machine interface 10 bidirectionally couples to the game controller 6, it communicates with the game controller via a defined handshake protocol. The interface 10 is also bidirectionally coupled to an EFT system 11 through a local area network (LAN) and/or a wide area network (WAN). It contains the hardware and software and/or firmware necessary to allow processing of information from both game controller 6 and EFT system 11. The gaming machine interface 10 is specially programmed to communicate with such game controller and EFT system such that it can send electronic or optical signals requesting a funds transfer from a remote institution, and it can also receive signals authorizing such transfers

to obtain plays on the gaming machine. Interface 10 can also receive and process information provided by game controller 6 regarding the progress of a game including any payouts to gaming machine interface 10. For example, if a player wished to play a quarter slot machine, he or she would receive \$20 in quarters from a casino attendant in return for \$20 in bills from the EFT (see figures 1-3; col. 5, line 17+).

### *Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lucero, US patent No. 5,038,022, discloses an apparatus and method for providing credit for operating a gaming machine. Lucero, US patent No. 5,457,306, discloses a gaming machine system operable with general purpose charge.
